

## **New Mate extensions for using AIR and SQLite: "SQLService + SQLServiceInvoker"**

<http://www.websector.de/blog/2008/10/04/new-mate-extensions-for-using-air-and-sqlite-sqlservice-sqlserviceinvoker/>

Installation:

Open Flex Builder and import the MateAIRSQLiteExample.zip:

File -> Import -> Flex Project -> Archive File -> Browse to MateAIRSQLiteExample.zip

If you have any questions feel free to post these on my blog or drop me an email.

Have fun!
